

REMAP CONSULTING: ANALYST VACANCY

2019

Remap Consulting is a specialist pharmaceutical pricing, reimbursement and market access consultancy

Remap Consulting has three areas of expertise:

Launch Implementation

We develop pricing and market access strategies to help clients achieve patient access

Training

We provide bespoke training for clients on a range of topics, including market access and country-specific healthcare systems

Price Optimisation

We help clients develop and implement pricing and market access strategies

Broad range of global clients, from top Pharma through to small start-up organisations

We are located at Alderley Park, the UK's largest bioscience campus and are easily accessible by local transport links

**Alderley Park
(located just outside
Manchester)**

Good public transport links, including an Alderley Park shuttle to nearby train stations

Conveniently located on both the UK's North/South and East/West motorway network

Onsite facilities include four restaurants and cafes, Amazon lockers and a gift shop

Cycle racks, on-site gym, indoor and outdoor sports facilities and showers

Remap Consulting is searching for talented, enthusiastic individuals to join our expanding team in the Analyst role

The Analyst role is integral to our business success and you will be working closely with the senior partners on a diverse range of strategic pricing and market access projects

What the Analyst role entails:

- ▶ Conducting research to help identify evidence and solutions that will help to address our client's needs
- ▶ Creating high quality reports, presentations and other client deliverables
- ▶ Managing tasks to ensure deliverables are achieved within stated timelines
- ▶ Analysing and interpreting data to deliver product, company and market analyses that will shape client recommendations
- ▶ Developing pricing and reimbursement materials, such as HTA submissions, price and reimbursement submission forms, tender documents to support patient access to client's products
- ▶ Proactively developing knowledge of global pricing and market access systems and consulting methodologies
- ▶ Contributing to proposal development and building relationships with clients to drive long-term partnerships

We are looking for candidates with an entrepreneurial spirit and a passion for pharmaceutical pricing and market access

A strong academic track record (minimum of 2.1 classification), with an undergraduate degree in a strongly analytical subject area, including: life sciences, pharmacy, business studies, economics, or a medical related degree

An interest in and desire to learn about the constantly evolving pharmaceutical pricing and reimbursement environment

Excellent work ethic and commitment to delivering high quality work

Outstanding written and verbal communication skills

Strong analytical and problem-solving skills

Good project management, time management and organisational skills

Exceptional IT skills in Word, PowerPoint and Excel

Strong teamwork and self-motivation skills

Commercial acumen and an entrepreneurial approach

At the time of starting their employment, the successful candidate must have permission to work in the UK

We have a highly supportive and collaborative environment which is focused on client, business and individual success

Financials

- Competitive salary
- Performance-related rewards
- Company pension
- Corporate discount card offering discounts for dining, shopping and popular UK attractions

Training & development

- Lunch and learns
- Mentoring
- External training opportunities
- On-going personal support from line managers

Working environment

- Flexible working
- A friendly and informal office environment
- Regular team-building activities (past events have included: go-karting, hot-air ballooning)
